Introduction

We rate your privacy extremely highly. Accordingly, we adhere to all relevant legislation and regulation, such as the General Data Protection Act (hereafter referred to as the GDPR).

Your personal data is in safe, professional hands with us. This Privacy Statement outlines all the ways in which Roompot processes the information we know about you.

The information listed in this Privacy Statement pertains to our guests and interested parties.

This Privacy Statement applies to Roompot. This comprises the following entities: Roompot Services B.V., Roompot Recreatie Beheer B.V. and the park where you are staying.

Should you have any further queries or wish to know the precise personal data we hold about you, please get in touch with Roompot. Our contact details are listed at the bottom of this Privacy Statement.

Processes

Below you will find the processes that occur within our organisation. For each one we have listed the reasons for processing your personal data. The table below that shows the personal data we process. Occasionally, we forward your personal data on or third parties help us process your personal data. These third parties are also listed in the table.

Generic communication

Purpose: Communication by Roompot with third parties and internal workforce communication

In this Privacy Statement we endeavour to specify as accurately as possible why, when and how Roompot communicates. However, certain (exceptional) cases may arise that are hard to readily categorise under one of the outlined processes. In such an instance we adhere to the following guiding principles when processing personal data.

We process such data on the basis of our legitimate interest in carrying out standard business practices.

Booking a stay at Roompot

Purpose: To facilitate guests in booking a stay at Roompot.

Are you planning on booking a stay at Roompot? We process various booking details. We do so to secure your booking. We may also process other data, depending on your preferred booking method. For instance, we process your IP address when you make your booking via a Roompot website. Plus your telephone number, when you make your booking over the phone. Want to know in precise detail? If so, you can e.g. look at our cookie statement or under "Guest contact" in this Privacy Statement.

Are you organising your booking on a Roompot website? If so, we will save this booking for 14 days. This means you can continue planning your booking when you next visit our website.

Taking out cancellation insurance

Purpose: The guest taking out cancellation insurance.

Should you wish to, you can take out cancellation insurance via Roompot for your booking. We in turn hand over the relevant details to the insurance company: De Europeesche.

You can submit any claim you may have directly to De Europeesche. Unfortunately, Roompot cannot do this on your behalf. Is De Europeesche paying out? In this instance you will receive your payment via Roompot. This is why we save some of your insurance details.

Reviews and surveys

Purpose: Processing submitted guest reviews. Plus, sending and processing surveys that have been sent to guests.

We continuously strive to improve upon our guest satisfaction. As such, your input is crucial. That is why we send you surveys, and keep a close eye on reviews left on other websites.

Occasionally, we ask whether we can post your review on our own website. We will always ask for your consent first though.

Guest credit control

Purpose: Ensuring guests pay for their stay on time. Should this not happen, recovering the cancellation costs.

When you make a booking at Roompot we will send you an invoice to settle up. If you fail to pay this invoice on time, we will send you a reminder. It may have slipped your mind, of course.

Still haven't settled up? If so, we have no other choice but to cancel the booking and charge you for any corresponding costs. Should you fail to pay these costs we will unfortunately have to engage a debt collector.

Socials and chat

Purpose: Interaction with (potential) guests via social media channels or the live chat functionality on Roompot's website.

Have you got in touch with us via WhatsApp, a social media channel or live chat on our website? If so, we will process some of your details. The exact kind of data we will process depends on the medium you have used. A

handful of third parties support us in managing our accounts, and as such also have access to your messages. Naturally, they treat these as classified, and they are bound by confidentiality.

Newsletters

Purpose: Sending newsletter to guests and people subscribed to it.

Roompot periodically sends newsletters to guests and other interested parties. Once you have made a booking at Roompot we will send you this newsletter on the basis of our legitimate interest in keeping our guests up-to-speed.

Otherwise, we only send out newsletters to people who have actively subscribed to it.

Targeted adverts on social media

Purpose: Approaching Roompot target groups via the appropriate channels, such as the recipient prefers.

We are keen to inform you about interesting offers and other news. To this end, we place specific adverts on social media. This allows us to reach the people for whom the news is of relevance. To do so effectively, we process some of your personal data. This can occur, e.g. via cookies.

Would you like to find out more about cookies on the Roompot websites? If so, please refer to our Cookie Statement.

Security and on-park disasters

Purpose: Park security and processing disaster reports

Our parks are monitored for your security, and ours. Reports and incidents are responded to rapidly and effectively. Formal warnings can also be issued. In exceptional cases we will ask a guest or travel group to leave the park. Is your stay at the park booked via your company? If so, we will also notify your employer of any formal warnings or expulsions.

CCTV

Purpose: CCTV at Head Office and the parks.

To ensure the safety of guests, personal property and our employees, CCTV is in operation in various locations. In highly exceptional cases temporarily concealed CCTV is also deployed. This is only done when no other alternatives are open to us.

The exact retention period of the CCTV footage differs per location, yet in any case is always less than 14 days.

Roompot is very conscious of the fact that filming guests and our employees is a significant infringement of privacy. That is why we handle the footage with extreme care and only film where necessary.

Registration of guests at French parks

Purpose: To maintain a register of guests staying at French parks.

The moment you stay at a French park and if you are 15 years or older, you have to complete a registration form. In doing so, Roompot is obliged to request the data below. In addition, some personal data of children under 15 years of age are also listed on the form of an accompanying adult. This concerns the following personal data: full name, date of birth, place of birth, full address and nationality.

The prepared records must be kept for six months and handed over to the police and state police units upon their request.

Complaints handling

Purpose: Handling complaints submitted to Roompot.

We do our utmost to ensure your stay at Roompot is the best it can be. Unfortunately, we sometimes fall short of the mark. You can always submit a complaint if you feel the need to do so. We will then put our heads together to try and find an appropriate solution.

What if this fails? Please feel free to take further steps. For instance, you could approach the Disputes Committee. In such an instance we will usually provide your details to our lawyer, to help us further.

Management info

Purpose: Gaining insight into various Roompot activities for the improvement of the organisation and its service provision.

When formulating management information we always strive to only process required information. At no time will generated reports contain personal data.

What kind of data do we process?	Upon what grounds do we process this data?	How long do we retain this data for?	Third parties involved

Other data sharing

Purpose: The sharing of data with third parties in a manner and/or for a purpose not currently foreseen.

This general process applies to the sharing of personal data with third parties for a purpose that is only incidental and/or not foreseen at the time of drafting this privacy statement.

Personal data may be shared with third parties if there is a legal obligation to do so. This could be, for example, if a government agency requests personal data from us based on a legal provision. But we may also share your personal data incidentally with third parties if there is a legitimate interest to do so.

Personal data will only be shared if there is a purpose that is compatible with the purposes for which the personal data were initially collected. Whether there is compatibility will always be strictly assessed.

Is there no compatible purpose? Then we may only share the personal data with third parties for another purpose if you have given your consent.

Recipients

Above we listed the third parties that may potentially process your personal data too. We call these third parties 'recipients'. The table below lists all of these recipients. We have also stated what they do, plus their contact details. In this way you always know where your personal data is being processed.

Occasionally a recipient outside the EU will process your personal data. Rest assured, caveats are attached. The GDPR mandates us to take specific pre-determined steps in such an instance. Which, of course, we do. Below we have outlined the steps we take.

What is also important to remember is that Roompot isn't the owner and/or manager of every park. To facilitate your stay at the park we therefore need to share your reservation details with the park owners/managers. In such cases we bear joint liability for your personal data, with agreements in place to back that up. In a nutshell, this

means Roompot is your point of contact for any queries or in the event of a data breach. Similarly, as a rule, it will be Roompot who notifies the authorities and yourself, of any potential data breach.

Amendments to this Privacy Statement

Roompot is a dynamic organisation. This may impact your personal data. For instance, we may start processing more of your personal data, or for different purposes. However, we will always provide advance notice. We do so by making amendments to this Privacy Statement. Would you like to know when this Privacy Statement comes into effect? If you go right to the top of this statement, you'll see the start date listed.

Your rights

If we process your personal data, you in turn are entitled to certain rights. Would you like to exercise these rights? If so, please get in touch with us, stating the right(s) you wish to exercise. Our contact details are listed at the bottom of this Privacy Statement.

Please be sure to clearly state your name. This will ensure we don't mistakenly adjust or delete data for another person. It may be the case that we aren't able or authorised to carry out your request. This depends on a number of issues. Which we will of course always notify you of. Would you like more information about your rights? If so, please visit the Dutch Data Protection Authority website.

As a rule, we will process your request within 1 month. Occasionally this may unfortunately take longer. In this instance we will notify you and explain why we need more time.

You are entitled to the following rights:

Right of access

Would you like to know what kind of personal data Roompot processes about you? If so, you can submit a right to inspect this data. It's more than likely that we process different categories of your personal data. Or for several purposes. You may only wish to inspect some of the data processing. Please therefore clearly state exactly what it is you wish to inspect.

Right to rectification

Has it transpired that your personal data held by Roompot is inaccurate, incomplete or irrelevant? If so, you can submit a request to have your data changed or supplemented. You can request rectification if your personal data is inaccurate, incomplete, irrelevant to the purpose for which it was collated or if we use your personal data in such a way that you believe contravenes legislation.

Right to erasure

You can ask us to erase your personal data. However, we would like to stress that we most likely won't be able or authorised to erase all your personal data. We will however always keep you notified in this instance.

Right to data portability

If Roompot processes your personal data you can exercise your right to data portability (transmission of personal data), as you have provided your consent to do so. Or in order to fulfil a contract with you. Please note: this only applies to data that we process digitally. So, not to hard copies.

Right to restrict processing

In certain circumstances an organisation may no longer use your personal data. Nor can it (yet) erase the data either. In such an instance the organisation must temporarily cease using your personal data. This is known as the right to restrict processing. You can ask us to limit the processing of your personal data.

Right to object

There are two situations in which you can ask Roompot to cease using your personal data. This is known as the right to object. Firstly, if we use your personal data for direct marketing purposes. Secondly, you can object against the use of your personal data based on your specific individual situation.

Right to revoke consent

Does Roompot process your personal data based on your consent? If so, you can revoke your consent at any given time. We will no longer process your personal data from that moment on. Unless (other) reasons for processing your personal data prevail.

Technical and organisational provisions

We deem personal data security to be paramount. We take the following steps to safeguard your privacy:

Technical provisions:

- Access to your personal data is protected by a username (where feasible) and password, which is subject to a password policy.
- Access to personal data is protected by a username and a login token (where feasible).
- Upon receipt, personal data is saved in separate, encrypted folders.

Organisational provisions:

- Access to files is restricted via roles & rights.
- We take physical steps, such as access protection locks for the systems storing personal data.
- Periodic review of the effectiveness of our provisions.

Submitting a complaint

If you wish to submit a complaint about the use of your personal data please email: privacy@roompot.nl. We process submitted complaints in-house and communicate directly with you.

Moreover, you are at all times entitled to submit your complaint to the supervisory body. In The Netherlands that would be the Dutch Data Protection Authority.
